

DTF A3 printer

FEATURES

1390 PRINT HEAD

With the 1390 printing nozzle, the colors are fuller, the stable printing is clear, the ink jet is smooth white, and the membrane circulation system solves the nozzle blocking problem

TEMPERATURE CONTROL

The temperature meter that shows the current temperature can also adjust the current temperature up / down

MULTIFUNCTIONAL KEY

With the available multifunction keys (such as the clear key or the on/off key...) the printer is very easy to operate.

FILM ROLL PLATFORM

Independent film rolling platform, more convenient to use.
